

Medical Report

Patient Name:	Rahul Sharma
Age / Gender:	29 / Male
Patient ID:	P123456
Date of Report:	31-Aug-2025
Referred By:	Dr. Meera Kapoor (MD)

Clinical Notes:

Patient reports persistent fever, mild cough, and fatigue for the past 5 days. No history of chronic illness. No known allergies.

Laboratory Investigations:

Test	Result	Normal Range
Hemoglobin	13.8 g/dL	13.0 - 17.0 g/dL
WBC Count	11,200 / μ L	4,000 - 11,000 / μ L
Platelet Count	180,000 / μ L	150,000 - 450,000 / μ L
Blood Glucose (Fasting)	95 mg/dL	70 - 100 mg/dL

Diagnosis:

Findings suggest mild viral infection. No immediate complications detected.

Prescription:

- Paracetamol 500mg - Twice daily after meals
- Cough Syrup (Ascoril) - 10ml thrice daily
- Adequate hydration and rest
- Follow-up if symptoms persist beyond 7 days.
